

There are two versions here, for two different age groups, but allow your child to choose which they want to make with you. With a little adult help, kids can do most crafts.

1. Have the child colour in the puppet before cutting out.
2. Cut the peices out along the solid lines
3. Fold along the dotted line
4. use a piece of tape to attach the front and back together and make a pocket for our finger

If you are doing the 3-5 year old puppet:

5. Using a glue stick, glue the ears and nose onto your pig so it looks like the 1-3 year old puppet.

For 3-5 year olds

For 1-3 year olds
